

## 1. Hedgehog Poo

Yay - another hedgehog friend is nearby! Maybe it's Apricot doing her Hedgehog Walk for The Wildlife Trusts!

## 2. Fox Poo

That looks like fox poo! Finlay must be taking part in the Wildlife Trusts' Hedgehog Walk too! He is very energetic. He loves to make mischief and he can run very fast.

## 3. Rabbit and Hare Poo

This looks like rabbit or hare poo! If you see one, be sure to keep a distance because they're very sensitive to danger, so you might spook them if you get too close.

## 4. Badger Poo

Looks like a badger has been here! Maybe it's Stripey... I hope he doesn't fall asleep on his walk! He is sleepy and not very active in the day as he is nocturnal.

## 5. Deer Poo

Oh dear, a deer! Deer are spooked very easily! Make sure to tip toe away so you don't scare them.

## 6. Owl Pellets

Those look like owl pellets! Even though it looks quite like poo, these are actually regurgitated by the owl! Maybe Otus is around here somewhere. Otus is a bookworm and is also sensitive.
